EDUCATION

B.Tech — Computer Science & Engineering (AI & ML) 2023 – 2027
St. Mary's Engineering College, Hyderabad (JNTUH-affiliated)
CGPA: 8.1 · Sem 6 SGPA: 8.65

RELEVANT COURSEWORK

- Machine Learning
- Deep Learning
- Probability & Statistics
- Linear Algebra
- Natural Language Processing
- Information Retrieval
- Data Analytics
- Knowledge Representation

TECHNICAL SKILLS

ML / DL Scikit-learn · PyTorch · TensorFlow · XGBoost · SHAP · RandomForest · LightGBM
GenAI Flux.1-dev · LoRA · ControlNet · SAM 2 · Depth Anything V2 · Stable Diffusion
NLP & RAG Whisper · LlamaIndex · ChromaDB · Azure AI Language · HuggingFace Transformers
Math Linear Algebra · Probability · Bayesian Inference · Optimization · Statistics
Stack Python · Streamlit · SQLite · Git · HuggingFace Spaces · Gemini API · Azure AI

PROJECTS

AI Interview Auditor · *Whisper · Groq/LLaMA 3.3 · LlamaIndex · ChromaDB · RandomForest · Streamlit* • **Deployed**
GitHub: <https://github.com/chaithanyareddy/ai-interview-auditor> Live: <https://huggingface.co/spaces/chaithanyareddy/ai-interview-auditor>

- Built end-to-end interview coaching app: Whisper STT → LLaMA 3.3 70B evaluation via Groq API → RAG feedback using LlamaIndex + ChromaDB vector store.
- Engineered Interview Readiness Score (IRS) using RandomForest classifier with SHAP explainability; SQLite session persistence for longitudinal tracking.
- Deployed on HuggingFace Spaces; designed 20-student validation study – baseline IRS 54, target 71 post-coaching (projected 32% improvement).

RoomGen AI — Indian Interior Design Generator · *Flux.1-dev · LoRA · ControlNet · SAM 2 · Depth Anything V2 · Gemini API* • **Active**
GitHub: <https://github.com/chaithanyareddy/roomgen-ai>

- Built generative room redesign pipeline: room photo → Gemini spatial analysis → ControlNet + Flux.1-dev inpainting → photorealistic output with Indian furniture styles.
- Integrated SAM 2 for object-level masking and Depth Anything V2 for geometry-aware furniture placement; LoRA fine-tuned on Indian interior datasets.
- Targeting Indian homeowners; INR budget tiers with e-commerce integration (Pepperfry, Urban Ladder) planned for v2.

CERTIFICATIONS & ONLINE TRAINING

- Stanford Machine Learning Specialization – Andrew Ng (Coursera) 2024
- Deep Learning Specialization – Andrew Ng (Coursera) 2025 (in progress)
- Microsoft AI Skills Fest – Azure AI-102 Exam Voucher Track Jun 2026

ACHIEVEMENTS & ACTIVITIES

- Turing Data Science Vetting Assessment — identified 3 critical model errors (impossible AUC values, wrong classifier class, broken training loop) in a fraud detection case study.
- Applied to IIT Hyderabad SURE 2026 Research Internship & Jio Platforms ML Research Track (Hinglishi NLP focus).
- GATE 2027 preparation commencing Aug 2026 — DA (Data Science & AI) paper; 24-week structured plan.
- CSK fan. Luna's owner. Ships before talking about shipping.
